HARRISON

Reimagining Retail

With Zero Waste Solutions

Here at Harrison, we are passionate about our planet so have set out to help eradicate single use plastics from the food supply chain by offering **sustainable retail innovations**.

As industry leaders, we recognise the impact of the rising waste packaging problem so we work alongside small and major retailers on a shared mission to **significantly reduce food waste and single use packaging**.

Designed and manufactured to the **highest specifications** using **state-of-the-art technologies**, we tailor our sustainable retail products to create the perfect solution to your brief.

REFILL STATION

1. WEIGH & LABEL YOUR EMPTY CONTAINER OR USE A REUSE BAG.
2. FILL YOUR CONTAINER.
3. WEIGH & RE-WEIGHT YOUR FULL CONTAINER.

REFILLED

REFILLED 13L Dispenser

Capacity: 13 Litres

Width: 10cm Depth: 35cm Height: 71cm

Available Mounts: Hook or Base

Shelf Mounting

Gravity Dispenser

Shelf mounting is a simple and efficient way to display **REFILLED Gravity Dispensers.**

Suitable for use on existing shelves or using our pre-made and bespoke designed shelving units, use the retainer button to fix through shelving. Order with the base attachment which facilitates easy removal for refilling and cleaning.

We also offer a **Catch Tray System** designed to collect any overflow or spilled products and eliminate food waste. Trays are available in lengths of 60cm or 100cm and can be used in conjunction to create larger systems.

Wall & Bar Mounting

Gravity Dispenser

Wall mounting offers a sleek alternative solution for displaying Gravity Dispensers on any suitable wall spaces.

Easily add to your existing product range by simply mounting new dispensers to walls. **REFILLED Gravity Dispensers** must be ordered with the **Hook attachment** if intended for wall mounting.

We also offer a **Bar Mount System** which can be used to display dispensers on any existing store shelving. The Bar System can be made to any length to suit current bay widths in your store as an alternative approach to wall mounting Gravity Dispensers.

REFILLED

Scoop Bin

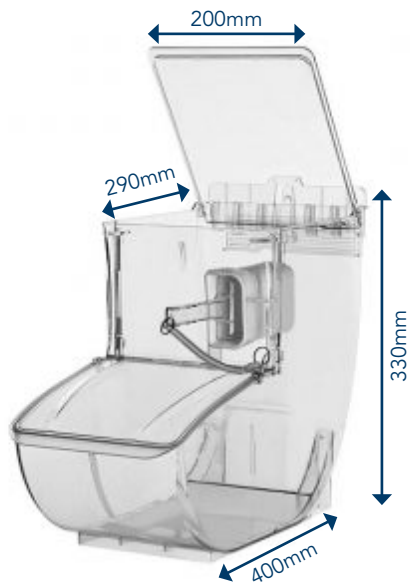

REFILLED

Scoop Bin

- BPA free and safe for food storage
- Naturally rotates stock for no packaging waste
- Ideal for hard-to-flow products
- Complete with Scoop, Holder and Tether
- Available as 13L, 22L
- Suitable for shelving with no fittings required
- Durable and robust
- False front maintains display when product levels are low
- No cross-contamination
- Easy to use and clean

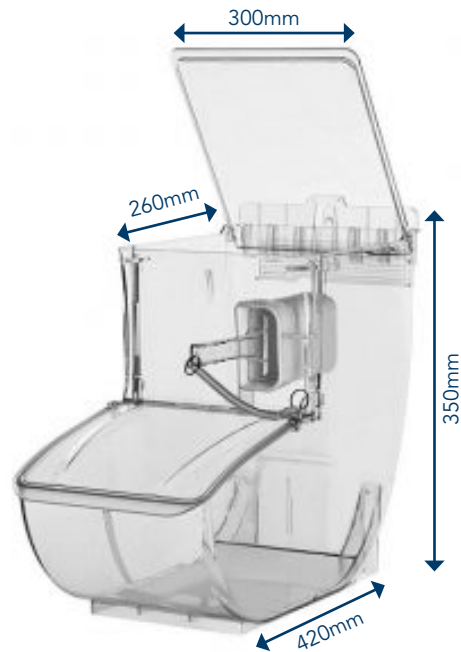

REFILLED 13L Bin

No Fittings Required

Shelf Installation

Easy to install by simply placing on shelving with no additional fixings required. Ensure that shelving is deep enough and designed to hold the weight of filled bins.

Store Fixturing

Bespoke Sustainable Solutions

Choose from our wide range of **pre-made shelving stands** or liaise with our team of experts to design a **tailor-made solution**.

Crafted from high-quality durable wood and metal, we will create a fixture that is designed specifically with your store and customers in mind. Units can also be branded accordingly to elevate your company image and brand recognition.

We will work alongside you every step of the way to create a bespoke and sustainable store fixture solution that suits your brief and securely houses your new **REFILLED Gravity Dispensers** and **Scoop Bins**.
